Trade leaflet

**THE GAS SAFETY REGISTER IN GREAT BRITAIN HAS CHANGED**

If you are currently training to qualify to gas work, you will need to register with Gas Safe Register as a condition of your course. You can do this through our website [gasregister.co.uk](http://gasregister.co.uk) or by getting someone else to do it for you. See our website for more information.

If you used a Gas Safe registered contractor you will need to ensure you are not using a Gas Safe registered engineer. You can check their registration or find a Gas Safe registered engineer through our website [gasregister.co.uk](http://gasregister.co.uk) or call 0800 408 5500.

If you think an engineer is not registered, call our 24-hour helpline on [www.gasregister.co.uk](http://www.gasregister.co.uk)

**THE GAS SAFE REGISTER HAS RECENTLY INTRODUCED CHANGES TO THE WAY WE REGISTER AND THE PUBLIC SET UP FOR REGISTERING AND THE PUBLIC:**

• You can now register as a Gas Safe registered engineer.	• A new requirement for training and competence for Gas Safe registered engineers.
• You can now register as a Gas Safe registered engineer.	• A new requirement for training and competence for Gas Safe registered engineers.
• You can now register as a Gas Safe registered engineer.	• A new requirement for training and competence for Gas Safe registered engineers.
• You can now register as a Gas Safe registered engineer.	• A new requirement for training and competence for Gas Safe registered engineers.

For trainees and those who engage gas contractors, includes how to register. A5, 8 pages

Cowboy leaflet

**GAS AND COWBOYS DON'T MIX**

Protect yourself from the dangerous work of illegal gas workers:

- Always use a Gas Safe registered engineer. All registered engineers are listed on [www.GasSafeRegister.co.uk](http://www.GasSafeRegister.co.uk). Alternatively call 0800 408 5500.
- Always check their Gas Safe ID card. Make sure the card is valid and check the back of the card to ensure they are qualified to carry out the work you need done.

Gas Safe Register is working hard to stamp out illegal gas work. Gas Safe will investigate anyone working illegally and with your help will knock them off the 'cowboy' list so you can put them in danger. If you suspect your gas worker is not registered please let us know.

Did you know?  
At least a quarter of all gas appliances installed in our homes each year are done illegally.  
At least 7,500 illegal gas fires in GB are doing the most common and often most dangerous type of gas work in our homes.

**Gas Safe REGISTER**

For general public. Specific leaflet around the dangers of using an illegal gas worker. A6, 2 pages

Consumer Poster

**HEADACHES  
DIZZINESS  
NAUSEA  
BREATHLESSNESS  
COLLAPSE  
LOSS OF CONSCIOUSNESS**

**Do you use gas at home?  
Do you have any of these symptoms?**

It could be carbon monoxide poisoning. You can't see, taste or smell it but it can kill quickly with no warning. If you suspect carbon monoxide poisoning, seek medical advice and call the gas emergency helpline.

Gas appliances that are badly fitted or faulty can put you at risk from carbon monoxide poisoning. Always use a Gas Safe registered engineer.

# ARE YOU GAS SAFE?

The logo for Gas Safe Register, featuring the words "GAS safe" in a stylized font with "GAS" in small letters above "safe", and "REGISTER" in a smaller font below it. The logo is positioned between the letters "S" and "FE?" of the main headline.

**Gas Safe Register is the official stamp for  
gas safety in Great Britain and Isle of Man.**

To carry out work on gas installations and  
appliances safely and legally, you must be  
on the Gas Safe Register.

Get Gas Safe registered now. If you do gas  
work, you can't work without it.
