

# Legislative, Normative & Informative Document List

## The Gas Safe Register Legislation & Standards Document List

Date issued: 1 October 2020

### Introduction

This document defines all documents recognised by Gas Safe Register as being Legislative, Normative (gas Standards) and Informative reference documents. Some documents are available only as hard copy documents, but the majority are available to download, either via Gas Safe Register's engineer website, or from the organisation or body promoting the document. In some cases, the document is only available for purchase from the organisation or a recognised supplier. Where this is the case, the availability is identified alongside the reference to the document.

### Hierarchy of Legislation and Standards

In this document list, the hierarchy of documents within the following tables is defined in order of significance.

Detailed first are those Statutory Acts, or Regulations that are legally enforceable. These are followed by a recognised list of documents known as 'Second Tier' documents. This series of documents provides practical guidance on ways to comply with the functional requirements of Regulations. This guidance is not law, but provides information that, if followed correctly, will ensure that legal obligations have been met. Where someone chooses to depart from this guidance, they will need to ensure that the method chosen provides equivalent or better standards of safety than the relevant published guidance. The guidance provided within appropriate second tier documents will be used to assess compliance.

The next tier of documents is gas industry standards that are aimed specifically at the installation, commissioning or maintenance of gas equipment (pipework, appliances, etc). These are known as Normative Documents and are referred to as 'Gas Industry Standards'. These documents, in conjunction with any available manufacturer's instructions, will be used by Gas Safe Register to assess compliance.

Finally, the remaining listings provide details of links to other available information, which is considered useful to help enable registered businesses to comply with their obligations and assist them in carrying out their day-to-day activities. These are referred to as Informative Documents.

# Legislative, Normative & Informative Document List

**The Gas Safe Register Legislation & Standards Document List**

**Date issued: 1 October 2020**

## Layout of Tables

This document list comprises a series of tables in four sections as follows:

Section 1 - Legislation	Page 5
Section 2 – Documents Supporting Legislation	Page 8
Section 3 – Gas Industry Standards	Page 15
Section 4 – Other Informative Documents and Useful References	Page 20

## **Inspections undertaken by Gas Safe Register**

When Gas Safe Register inspects work undertaken by registered gas businesses in Great Britain, Northern Ireland and the Isle of Man and Guernsey, in the first instance it will assess against the manufacturer's installation instructions and where these are not available or relevant, against the criteria as specified within legislative documents and relevant gas industry standards. However, it is recognised that, due to the differences of individual legislation used in different geographical areas, there will be some differences in application. While conducting inspections, due regard will be taken of the requirements of all appropriate guidance.

### **The hierarchy of documents is defined as follows:**

#### **Legislation**

In this section the listed documents are those brought to the Statute Book by Act of Parliament and are referenced as Statutory Instruments (SI) or equivalent. These are the law in the respective countries as stated and must be followed. The SI Reference number (or equivalent) is preceded by the year of it being added to the Statute Book, ie, the Gas Safety (Installation and Use) Regulations 1998 has an SI Number of 1998:2451. Regulations are in general written in a format that provides high-level requirements.

#### **Documents supporting**

#### **legislation**

This section includes details of a number of Second Tier documents, i.e., Approved Documents to the Building Regulations. These documents provide practical guidance on ways to comply with the functional requirements of the Regulations.

For the Building Regulations, these are outlined in a series of Approved Documents (AD) published by the appropriate government department responsible for the Regulations. The ADs that currently apply to gas work are:

- A Structure
- B Fire safety
- F Ventilation
- G3 Hot water storage
- J Heat producing appliances
- L Conservation of fuel and power
- M Access to and use of buildings
- P Electrical safety in dwellings.

Each document contains general guidance on the performance expected of materials and building work in order to comply with each of the requirements of the Building Regulations; and practical examples and solutions on how to achieve compliance for some of the more common building situations.

**Gas Industry Standards –** In this section are included all the Gas Industry Standards published by the three current Standard Setting Bodies, which are:

- British and European Standards (BSI)
- Institution of Gas Engineers and Managers (IGEM)
- Liquid Gas UK (formerly known as UKLPG)

One Standard is published by National Caravan Council (NCC).

**Informative references-** This section contains links to important documents that useful information to help registered businesses comply with their obligations and assist them in carrying out their day-to-day activities.

Key to Symbols Used	Symbol Code
New Normative Standard	+
New Informative Document / Reference	☀
Standard will be withdrawn (date entered)	*
Revision or Amendment to existing document	◊
Document available for Public Comment ‡	◻

When published, if it is known that the three-month validity period coincides with a period of time in which a Standard being revised is out for public comment, the final date for comment will be. Comments on draft standards can be submitted via:

British and European Standards (BSI) <https://standardsdevelopment.bsigroup.com/> (Registration required)

Institution of Gas Engineers and Managers (IGEM) <https://www.igem.org.uk/technical-services/comment-on-draft-standards/>

*This Gas Safe Document will be updated and republished on, or about the following dates each year:*

- 1 January
- 1 April
- 1 July
- 1 October.

If you identify an error in this document or you are aware of reference documents that may be useful that you think should be added to future editions, please email: [technical@gassaferegister.co.uk](mailto:technical@gassaferegister.co.uk)

### Links to online documents

When viewing this document online, hyperlinks are active, so that you can open the document and then be read or it for later use. However, all saved documents will be considered as uncontrolled versions and you should check that you are referencing the current version.

## Section 3 - Gas Industry Standards

British & European Standards <i>(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red - see Note 14)</i>		
Number	Title	Changes / Comments
<b>BS 4163: 2007</b>	Health and safety for design and technology in schools and similar establishments – Code of practice	
<b>BS 5440-1: 2008</b>	Flueing & ventilation for gas appliances of rated input not exceeding 70kW net (1st, 2nd & 3rd family gases) Specification for installation of gas appliances to chimneys & for maintenance of chimneys	
<b>BS 5440-2: 2009</b>	Installation & maintenance of flues & ventilation for gas appliances of rated input not exceeding 70kW net (1st, 2nd & 3rd family gases). Specification for installation & maintenance of ventilation provision for gas appliances	
<b>BS 5546: 2010</b>	Specification for installation & maintenance of gas-fired water-heating appliances of rated input not exceeding 70kW net	
<b>BS 5482-1: 2005</b>	Code of practice for domestic butane & propane-gas-burning – Domestic butane and propane gas-burning installations. Installations at permanent dwellings, residential park homes & commercial premises, with installation pipework sizes not exceeding DN25 for steel & DN28 for corrugated stainless steel or copper	
<b>BS 5482-2: 1977</b>	Installation in caravans & non-permanent dwellings (Amd May 2001)	
<b>PD 54823: 2016</b>	Code of practice for domestic butane & propane gas-burning installations. Installations in boats, yachts & other vessels	
<b>BS 3632: 2015</b>	Residential park homes. Specification	
<b>BS 5864: 2019</b>	Installation & maintenance of gas-fired ducted air heaters of rated input not exceeding 70kW net (2nd & 3rd family gases). Specification	
<b>BS 5871-1: 2005</b>	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel-effect gas appliances – Gas fires, convector heaters, fire/back boilers & heating stoves (1st, 2nd & 3rd family gases)	
<b>BS 5871-2: 2005</b>	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel-effect gas appliances – Inset live fuel-effect gas fires of heat input not exceeding 15kW & fire/back boilers (2nd & 3rd family gases)	
<b>BS 5871-3: 2005</b>	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel effect gas appliances – Decorative fuel-effect gas appliances of heat input not exceeding 20kW (net) (2nd & 3rd family gases)	
<b>BS 5871-4: 2007</b>	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel effect gas appliances – Independent gas-fired flueless fires, convector heaters & heating stoves of nominal heat input not exceeding 6kW (net) (2nd & 3rd family gases)	
<b>BS 6172: 2010 + A1 2017</b>	Specification for installation, servicing and maintenance of domestic gas cooking appliances (2nd & 3rd family gases)	
<b>BS 6173: 2009</b>	Specification for installation of gas-fired catering appliances for use in all types of catering establishments (2nd & 3rd family gases)	
<b>BS 6230: 2011</b>	Specification for installation & maintenance of gas-fired forced convection air heaters for commercial & industrial space heating (2nd & 3rd family gases)	

## Section 3 – Gas Industry Standards

### Institution of Gas Engineers and Managers Documents (IGEM) Continued *(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red- see Note 11)*

Number	Title	Changes / Comments
<b>BS 6400-1: 2016</b>	Specification for installation, exchange, relocation, maintenance and removal of gas meters with a maximum capacity not exceeding 6m <sup>3</sup> /h – Part 1 – Low pressure (2nd family gases)	
<b>BS 6400-2: 2006</b>	Specification for installation, exchange, relocation & removal of gas meters with a maximum capacity not exceeding 6m <sup>3</sup> /h (2nd & 3rd family gases) – Medium pressure (2nd family gases)	
<b>BS 6400-3: 2007</b>	Specification for installation, exchange, relocation & removal of gas meters with a maximum capacity not exceeding 6m <sup>3</sup> /h – Low & medium pressure (3rd family gases)	
<b>BS 6644: 2011</b>	Specification for Installation of gas-fired hot water boilers of rated inputs between 70kW (net) & 1.8MW (net) (2nd & 3rd family gases) – Incorporating Corrigendum No. 1	
<b>BS 6798: 2014</b>	Specification for selection, installation, inspection, commissioning, servicing and maintenance of gas-fired boilers of rated input not exceeding 70kW net	
<b>BS 6891: 2015 + A1 2019</b>	Specification for the installation and maintenance of low-pressure gas installation pipework of up to 35mm (R 1 ¼) on premises	
<b>BS 6896: 2011</b>	Specification for installation & maintenance of gas-fired overhead radiant heaters for industrial & commercial heating (2nd & 3rd family gases)	
<b>BS 7624: 2004</b>	Specification for installation & maintenance of domestic direct gas-fired tumble dryers of up to 6kW heat input (2nd & 3rd family gases)	
<b>BS 7671: 2018</b>	Requirements for electrical installations. Institution of Engineering and Technology (IET) Wiring Regulations (formally IEE Wiring Regulations) – Eighteenth edition	
<b>BS 7967: 2015</b>	Guide for the use of electronic portable combustion gas analysers for the measurement of carbon monoxide in dwellings and the combustion performance of domestic gas-fired appliances	
<b>BS 7967-5: 2010</b>	Carbon monoxide in dwellings & other premises & the combustion performance of gas-fired appliances – Guide for using electronic portable combustion gas analysers in non-domestic premises for the measurement of carbon monoxide & carbon dioxide levels & the determination of combustion performance	
<b>BS 8313: 1997</b>	Code of practice for accommodation of building services in ducts	
<b>BS 8446: 2005</b>	Specification for the installation & maintenance of open-flued, non-domestic gas-fired laundry appliances	Revision expected
<b>BS 8660-1: 2011</b>	Gas-fired micro-cogeneration appliances of rated thermal input not exceeding 70kW net Part 1: Specification for selection, installation, inspection, commissioning, servicing and maintenance of Stirling engine micro-cogeneration appliances	
<b>BS EN 721: 2019</b>	Leisure accommodation vehicles – Safety ventilation requirements	
<b>BS EN 751-1:1997</b>	Sealing materials for metallic threaded joints in contact with 1st, 2nd & 3rd family gases & hot water. Anaerobic jointing compounds	
<b>BS EN 751-2:1997</b>	Sealing materials for metallic threaded joints in contact with 1st, 2nd & 3rd family gases & hot water. Non-hardening jointing compounds	
<b>BS EN 751-3:1997</b>	Sealing materials for metallic threaded joints in contact with 1st, 2nd & 3rd family gases & hot water. Unsintered PTFE tapes	

## Section 3 – Gas Industry Standards

Institution of Gas Engineers and Managers Documents (IGEM) Continued		(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red- see Note 11)
Number	Title	Changes / Comments
<b>BS EN 1775: 2007</b>	Gas supply pipework for buildings – Maximum operating pressure loss $\leq$ 5 bar – Functional requirements	
<b>BS EN 12327: 2012</b>	Gas infrastructure – Pressure testing, commissioning and decommissioning procedures – Functional requirements	
<b>BS EN 50292: 2002</b>	Electrical apparatus for the detection of carbon monoxide in domestic premises – Guide on the selection, installation, use & maintenance	
<b>BS EN 15001-1: 2009</b>	Gas installation pipework with an operating pressure greater than 0.5bar for industrial installations & greater than 5bar for industrial & non industrial installations – Detailed functional requirements for design, materials, construction, inspection & testing	
<b>BS EN 15001-2: 2008</b>	Gas installation pipework with an operating pressure greater than 0.5bar for industrial installations & greater than 5 bar for industrial & non industrial installations – Detailed functional requirements for commissioning, operation & maintenance	
<b>BS EN 1949: 2011 +A1 2013</b>	Specification for the installation of LPG systems for habitation purposes in leisure accommodation vehicles & accommodation purposes in other vehicles	Under Review
<b>BS EN ISO 10239: 2017</b>	Small craft – Liquefied petroleum gas (LPG) systems	
<b>BS EN 13410: 2001</b>	Gas-fired overhead radiant heaters - Ventilation requirements for non-domestic premises (Amd Jan 03)	
<b>BS EN 1749: 2020</b>	European scheme for the classification of gas appliances according to the method of evacuation of the products of combustion	

Institution of Gas Engineers and Managers Documents (IGEM)		(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red- see Note 11)
<b>IGE/UP/1- Edition 2</b>	Strength & tightness testing & purging of industrial & commercial gas installations (inc Amd published March 05)	Under review
<b>IGE/UP/1A - Edition 2</b>	Strength testing, tightness testing & direct purging of small low pressure industrial & commercial Natural gas installations (inc amendments published March 2005)	Under review
<b>IGEM/UP/1B - Edition 3</b>	Tightness testing and direct purging of small Liquefied Petroleum Gas/Air, Natural Gas and Liquefied Petroleum Gas installations (with Amendments October 2012)	
<b>IGEM/UP/1C</b>	Strength testing, tightness testing & direct purging of natural gas and LPG meter installations	
<b>IGEM/UP/2 - Edition 3</b>	Installation pipework on industrial and commercial premises (Communication 1771)	Under Review
<b>IGEM/UP/3 - Edition 3</b>	Gas fuelled spark ignition and dual-fuel engines (Communication 1781)	Due for Review
<b>IGEM/UP/4 - Edition 4</b>	Commissioning of gas fired plant on industrial & commercial premises (Communication 1801)	
<b>IGEM/UP/6 – Edition 2</b>	Application of compressors to Natural Gas fuel systems	Under Review
<b>IGE/UP/7 - Edition 2</b>	<i>Gas installations in timber framed &amp; light steel framed buildings (inc. amendments published October 2008)</i> Note 8: IGE/UP/7 - Edition 2 is available free at <a href="https://www.igem.org.uk/technical-services/technical-gas-standards/utilisation/ige-up-7-edition-2-a-2008-gas-installations-in-timber-framed-and-light-steel-framed-buildings/">https://www.igem.org.uk/technical-services/technical-gas-standards/utilisation/ige-up-7-edition-2-a-2008-gas-installations-in-timber-framed-and-light-steel-framed-buildings/</a>	
<b>IGE/UP/9 - Edition 2</b>	Application of Natural Gas and fuel oil systems to Gas turbines and supplementary and auxiliary fired burners	Under Review

## Section 3 – Gas Industry Standards

Institution of Gas Engineers and Managers Documents (IGEM) Continued		(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red- see Note 11)
Number	Title	Changes / Comments
<b>IGEM/UP/10 - Edition 4 with amendments – March 2016</b>	Installation of flued gas appliances in industrial and commercial premises (Communication 1774)	
<b>IGEM/UP/11 – Edition 3</b>	Gas installations in educational establishments	
<b>IGEM/UP/12 – Edition 2</b>	Application of burners and controls to gas fired process plant (Communication 1778)	Under Review
<b>IGEM/UP/16</b>	Design for Natural Gas installations on industrial and commercial premises with respect to hazardous area classification and preparation of risk assessments (with amendments August 2013)	◆
<b>IGEM/UP/17</b>	Shared chimney and flue systems for domestic gas appliances	
<b>IGEM/UP/18</b>	Gas installations for vehicle repair and bodyshops (Replaced British Gas Technical Publication IM/28: 1993)	
<b>IGEM/UP/19</b>	Design and application of interlock devices and associated systems used with gas appliance installations in commercial catering establishments	
<b>IGEM/GL/8 - Edition 3</b>	Reporting and investigation of gas related incidents (Communication 1776)	Under review
<b>IGE/GL/9</b>	Guidance for large gas consumers in dealing with Natural Gas supply emergencies (Communication 1724) is available free at: <a href="https://www.igem.org.uk/technical-services/technical-gas-standards/legislation/igem-gl-9/">https://www.igem.org.uk/technical-services/technical-gas-standards/legislation/igem-gl-9/</a>	
<b>IGE/TD/4 - Edition 4</b>	Gas Services	Revision expected
<b>IGEM/G/1 – Edition 2</b>	Defining the end of the Network, a meter installation and installation pipework	Under review
<b>IGEM/G/4 Edition 2</b>	Definitions in the Gas Industry (Communication 1763)	Under review
<b>IGEM/G/5 Edition 2</b>	Gas in multi-occupancy buildings	Under review
<b>IGEM/G/6</b>	Gas supplies to mobile dwellings	Under Review
<b>IGEM/G/7</b>	Risk Assessment Techniques	
<b>IGEM/G/10</b>	Non-return valves	
<b>IGE/GM/4 - Edition 2</b>	Flow metering practice for pressures between 38 & 100bar	
<b>IGE/GM/5 - Edition 3</b>	Selection, installation & use of electronic gas meter volume conversion systems	Under Review
<b>IGEM/GM/6 - Edition 2</b>	Non-domestic meter installations – Standard designs	Under Review
<b>IGEM/GM/7A</b>	Electrical connections for gas metering equipment	
<b>IGEM/GM/7B</b>	Hazardous area classification for gas metering equipment	
<b>IGE/GM/8 - Part 1</b>	Non-domestic meter installations. Flow rate exceeding 6 m <sup>3</sup> h <sup>-1</sup> & inlet pressure not exceeding 38 bar Design	
<b>IGEM/GM/8 - Pt 2 Edition 2</b>	Non-domestic meter installations. Location, housings and compounds	
<b>IGEM/GM/8 - Pt 3 Edition 2</b>	Non-domestic meter installations. Installation and commissioning	
<b>IGEM/GM/8 - Part 4 Edition 2</b>	Non-domestic meter installations. Operation and maintenance	
<b>IGEM/GM/8 - Part 5 Edition 2</b>	Non-domestic meter installations. Notices and labels	
<b>IGEM/IG/1</b>	Standards of Training in Gas Work. <b>Note 9: IGEM/IG/1 is available free at:</b> <a href="https://www.igem.org.uk/technical-services/technical-gas-standards/industry-guidance/igem-ig-1-standards-of-training-in-gas-">https://www.igem.org.uk/technical-services/technical-gas-standards/industry-guidance/igem-ig-1-standards-of-training-in-gas-</a>	Revision expected

## Section 3 – Gas Industry Standards

Institution of Gas Engineers and Managers Documents (IGEM) Continued		(The numbers of the Industry Standards included in the Gas Safe Register Standards 'Subscription Initiative' are highlighted in red - see Note 11)
Number	Title	Changes / Comments
	<a href="https://www.igem.org.uk/technical-services/technical-standards/industry-guidance/igem-ig-1-standards-of-training-in-gas-work/">work/https://www.igem.org.uk/technical-services/technical-standards/industry-guidance/igem-ig-1-standards-of-training-in-gas-work/</a>	
<b>IGEM/IG/1 Supplement 1</b>	Standards of Training in Gas Work, Non-domestic training specification <b>Note 10: IGEM/IG/1 is available free at:</b> <a href="https://www.igem.org.uk/technical-services/technical-gas-standards/industry-guidance/igem-ig-1-supplement-1-non-domestic-training-specification/">https://www.igem.org.uk/technical-services/technical-gas-standards/industry-guidance/igem-ig-1-supplement-1-non-domestic-training-specification/</a>	
<b>IGEM/IG/2</b>	Engineer's Guide to relevant sections of IGEM/UP/19 in catering establishments (Communication 1772). <b>Note 11: IGEM/IG/2 is available free AT:</b> <a href="https://www.igem.org.uk/technical-services/technical-gas-standards/industry-guidance/igem-ig-2-guidance-for-gas-engineers/">https://www.igem.org.uk/technical-services/technical-gas-standards/industry-guidance/igem-ig-2-guidance-for-gas-engineers/</a>	
<b>IGEM/G/7</b>	Risk assessment techniques	
<b>IGEM/SR/25 Edition 2</b>	Hazardous area classification of natural gas installations (with amendments July 2013)	Due for review
<b>IGEM/SR/29 Edition 2</b>	Dealing with gas escapes	

### Liquid Gas UK Codes of Practice (CoP)

---	UKLPG - LPG Technical Fundamentals	
<b>CoP 1 Part 1</b>	Bulk LPG Storage at Fixed Installations – Design, installation & Operation of Vessels Located Above Ground	
<b>CoP 1 Part 2</b>	Bulk LPG Storage at Fixed Installations – Small bulk installations for domestic purposes	Under review
<b>CoP 1 Part 3</b>	Bulk LPG Storage at Fixed installations – Examination & Inspection	
<b>CoP 1 Part 4</b>	Bulk LPG Storage at Fixed Installations – Buried/Mounded LPG Storage Vessels (Inc Amendment March 2013)	Under review
<b>CoP 7</b>	Storage of full & empty LPG cylinders & cartridges	Under review
<b>CoP 17</b>	Purging LPG vessels & systems	Under review
<b>CoP21</b>	Guidelines for Safety Checks on LPG appliances in Caravans (Including Amendment Aug 2000)	
<b>CoP22</b>	Design Installation and Testing of LPG Piping Systems 2011 (Including Amendment 1 2012)	◆
<b>CoP 24 Part 1</b>	Use of LPG Cylinders – At residential & similar premises	
<b>CoP 24 Part 3</b>	Use of LPG for Commercial Catering Events, Street Food and Mobile Catering	
<b>CoP 24 Part 5</b>	Use of LPG Cylinders – Storage & use of LPG on construction sites	
<b>CoP 24 Part 6</b>	Use of Propane in cylinders at commercial & industrial premises	
<b>CoP 25</b>	LPG Central storage & distribution systems for multiple consumers (Including Amendment 1 2008)	
<b>GN 2</b>	A guide to servicing cabinet heaters	

### National Caravan Council (NCC) Codes of Practice (CoP)

<b>CoP 306</b>	Motorhomes: Fixed LPG tanks for habitation purposes V2.0	
----------------	--	--

### Building & Engineering Services Association (B&ES) - Formally Heating and Ventilation Contractors' Association

Number	Title	Changes / Comments
DW/172	Standard for kitchen ventilation systems	

### Other Industry Procedures/Documents

IGEM/G/11	Formerly known as The Gas Industry Unsafe Situations Procedure (GIUSP) – (TB 001) This can be viewed by logging into your online account at <a href="http://www.gassaferegister.co.uk/sign-in/">www.gassaferegister.co.uk/sign-in/</a>	
All Gas Safe Register Technical Bulletins	<i>These can be viewed by logging into your online account at <a href="http://www.gassaferegister.co.uk/sign-in/">www.gassaferegister.co.uk/sign-in/</a> For further information, see TB 1000.</i>	
All Gas Safe Register Safety Alerts	<i>These can be viewed by logging into your online account at <a href="http://www.gassaferegister.co.uk/sign-in/">www.gassaferegister.co.uk/sign-in/</a></i>	
All Gas Safe Register Industry Standard Updates	<i>These can be viewed by logging into your online account at <a href="http://www.gassaferegister.co.uk/sign-in/">www.gassaferegister.co.uk/sign-in/</a></i>	

**Note 13:** Gas Safe Registered businesses can find up-to-date access manufacturer's instructions/information for a wide range of heating appliances notably boilers and warm air heating appliances on the HHIC's website. This has been done in support of Gas Safe Register TB 126. For further information go to:

<https://installersfirst.co.uk/resources/>

**Note 14: Access to Industry Standards from Gas Safe Register**

The Industry Standard numbers highlighted in **red** are those included in the list of current Industry Standards available on a subscription basis to the majority of Gas Safe registered business. To subscribe, log into your online account at [www.gassaferegister.co.uk/sign-in/](http://www.gassaferegister.co.uk/sign-in/) and choose Standards Subscriptions'. Choose and pay for a one or three-year subscription and then you will be able to access the normative documents.
