Legislative, Normative & Informative Document List

Date issued: 1st July 2021

1. Introduction

This document defines all documents recognised by **Gas Safe Register** as being Legislative, Normative (gas Standards) and Informative reference documents.

Some documents may only be available as hard copy documents, but the majority are available to download, either via Gas Safe Register's engineer website, or from the organisation or body promoting the document. In some cases, the document is only available for purchase from the organisation or a recognised supplier.

2. Hierarchy of Legislation and Standards

In this document list, the hierarchy of documents within the following tables is defined in order of significance.

Detailed first are those Statutory Acts, or Regulations that are legally enforceable. These are followed by a recognised list of documents known as 'Second Tier' documents. This series of documents provides practical guidance on ways to comply with the functional requirements of Regulations. This guidance is not law, but provides information that, if followed correctly, will ensure that legal obligations have been met. Where someone chooses to depart from this guidance, they will need to ensure that the method chosen provides equivalent or better standards of safety than the relevant published guidance. The guidance provided within appropriate second tier documents will be used to assess compliance.

The next tier of documents is gas industry standards that are aimed specifically at the installation, commissioning or maintenance of gas equipment (pipework, appliances, etc). These are known as Normative Documents and are referred to as 'Gas Industry Standards'. These documents, in conjunction with any available manufacturer's instructions, will be used by Gas Safe Register to assess compliance.

Finally, the remaining listings provide details of links to other available information, which is considered useful to help enable registered businesses to comply with their obligations and assist them in carrying out their day-to-day activities. These are referred to as Informative Documents.

3. Hierarchy of documents

Legislation

In this section the listed documents are those brought to the Statute Book by Act of Parliament and are referenced as Statutory Instruments (SI) or equivalent. These are the law in the respective countries as stated and must be followed. The SI Reference number (or equivalent) is preceded by the year of it being added to the Statute Book, i.e., the Gas Safety (Installation and Use) Regulations 1998 has an SI Number of 1998:2451. Regulations are in general written in a format that provides high-level requirements.

Legislative, Normative & Informative Document List

Date issued: 1st July 2021

Documents supporting legislation

Regulations. These documents provide practical guidance on ways to comply with the functional requirements of the Regulations.

For the Building Regulations, these are outlined in a series of Approved Documents (AD) published by the appropriate government department responsible for the Regulations. The ADs that currently apply to gas work are:

- A Structure
- B Fire safety
- F Ventilation
- G3 Hot water storage
- J Heat producing appliances
- L Conservation of fuel and power
- M Access to and use of buildings
- P Electrical safety in dwellings.

Each document contains general guidance on the performance expected of materials and building work in order to comply with each of the requirements of the Building Regulations; and practical examples and solutions on how to achieve compliance for some of the more common building situations

4. Gas Industry Standards

In this section are included all the Gas Industry Standards published by the three current Standard Setting Bodies, which are:

- British and European Standards (BSI)
- Institution of Gas Engineers and Managers (IGEM)
- Liquid Gas UK (formerly known as UKLPG)

One Standard is published by National Caravan Council (NCC).

Legislative, Normative & Informative Document List

Date issued: 1st July 2021

5. Document's Under Review

When published, if it is known that the three-month validity period coincides with a period of time in which a Standard being revised is out for public comment, the final date for comment will be included.

Gas Safe Register will use best endeavours to keep the 'Documents Under Review' as up to date as possible but Gas Safe Register are **NOT** responsible for reviewing, revising or updating industry Standards. Where a registered business or industry stakeholder has an enquiry with regards to revisions to guidance documents then these enquiries should be directed to the relevant Standard Setting Body.

Comments on draft standards can be submitted via:

- British and European Standards (BSI) [Click here](#) (Registration required)
- Institution of Gas Engineers and Managers (IGEM) [Click here](#)

6. Links to online documents

When viewing this document online, hyperlinks are active, so that you can open the document and then be read or it for later use. However, all saved documents will be considered as uncontrolled versions and you should check that you are referencing the current version.

7. Inspections undertaken by Gas Safe Register

When Gas Safe Register inspects work undertaken by registered gas businesses in Great Britain, Northern Ireland and the Isle of Man and Guernsey, in the first instance it will assess against the manufacturer's installation instructions and where these are not available or relevant, against the criteria as specified within legislative documents and relevant gas industry standards. However, it is recognised that, due to the differences of individual legislation used in different geographical areas, there will be some differences in application. While conducting inspections, due regard will be taken of the requirements of all appropriate guidance.

Legislative, Normative & Informative Document List

Date issued: 1st July 2021

8. General

This Gas Safe Register Document will be updated and republished on, or about the following dates each year:

- 1 January
- 1 April
- 1 July
- 1 October

If you identify an error in this document or you are aware of reference documents that may be useful that you think should be added to future editions, please email: technical@gassaferegister.co.uk

BSI, IGEM and Liquid Gas UK develop and publish guidance with the help of industry in the form of committees. Gas Safe Register do not hold any responsibility for the development and publication of this type of guidance document. Where Registered businesses and stakeholders have questions regarding these guidance documents, these should be directed to the relevant Standard Setting Body.

Legislative, Normative & Informative Document List

Date issued: 1st July 2021

BS 6644: 2011	Specification for Installation of gas-fired hot water boilers of rated inputs between 70kW (net) & 1.8MW (net) (2nd & 3rd family gases) – Incorporating Corrigendum No. 1	
BS 6798: 2014	Specification for selection, installation, inspection, commissioning, servicing and maintenance of gas-fired boilers of rated input not exceeding 70kW net	
BS 6891: 2015 + A1 2019	Specification for the installation and maintenance of low-pressure gas installation pipework of up to 35mm(R 1 ¼) on premises	
BS 6896: 2011	Specification for installation & maintenance of gas-fired overhead radiant heaters for industrial & commercial heating (2nd & 3rd family gases)	
BS 7624: 2004	Specification for installation & maintenance of domestic direct gas-fired tumble dryers of up to 6kW heat input (2nd & 3rd family gases)	
BS 7671: 2018	Requirements for electrical installations. Institution of Engineering and Technology (IET) Wiring Regulations (formally IEE Wiring Regulations) – Eighteenth edition	
BS 7967: 2015	Guide for the use of electronic portable combustion gas analysers for the measurement of carbon monoxide in dwellings and the combustion performance of domestic gas-fired appliances	
BS 7967-5: 2010	Carbon monoxide in dwellings & other premises & the combustion performance of gas-fired appliances – Guide for using electronic portable combustion gas analysers in non-domestic premises for the measurement of carbon monoxide & carbon dioxide levels & the determination of combustion performance	
BS 8313: 1997	Code of practice for accommodation of building services in ducts	
BS 8446: 2020	Specification for the installation & maintenance of open-flued, non-domestic gas-fired laundry appliances	
BS 8660-1: 2011	Gas-fired micro-cogeneration appliances of rated thermal input not exceeding 70kW net Part 1: Specification for selection, installation, inspection, commissioning, servicing and maintenance of Stirling engine micro-cogeneration appliances	
BS EN 721: 2019	Leisure accommodation vehicles – Safety ventilation requirements	
BS EN 751-1:1997	Sealing materials for metallic threaded joints in contact with 1st, 2nd & 3rd family gases & hot water. Anaerobic jointing compounds	
BS EN 751-2:1997	Sealing materials for metallic threaded joints in contact with 1st, 2nd & 3rd family gases & hot water. Non-hardening jointing compounds	
BS EN 751-3:1997	Sealing materials for metallic threaded joints in contact with 1st, 2nd & 3rd family gases & hot water. Unsintered PTFE tapes	
BS EN 1775: 2007	Gas supply pipework for buildings – Maximum operating pressure loss ≤ 5 bar – Functional requirements	

Legislative, Normative & Informative Document List

Date issued: 1st July 2021

BS EN 12327: 2012	Gas infrastructure – Pressure testing, commissioning and decommissioning procedures – Functional requirements	
BS EN 50292: 2013	Electrical apparatus for the detection of carbon monoxide in domestic premises – Guide on the selection, installation, use & maintenance	
BS EN 15001-1: 2009	Gas installation pipework with an operating pressure greater than 0.5bar for industrial installations & greater than 5bar for industrial & non industrial installations – Detailed functional requirements for design, materials, construction, inspection & testing	
BS EN 15001-2: 2008	Gas installation pipework with an operating pressure greater than 0.5bar for industrial installations & greater than 5 bar for industrial & non industrial installations – Detailed functional requirements for commissioning, operation & maintenance	
BS EN 1949: 2011 +A1 2013	Specification for the installation of LPG systems for habitation purposes in leisure accommodation vehicles & accommodation purposes in other vehicles	Under review
BS EN ISO 10239: 2017	Small craft – Liquefied petroleum gas (LPG) systems	Under review
BS EN 13410: 2001	Gas-fired overhead radiant heaters - Ventilation requirements for non-domestic premises (Amd Jan 03)	
BS EN 1749: 2020	European scheme for the classification of gas appliances according to the method of evacuation of the products of combustion	

Institution of Gas Engineers and Managers Documents (IGEM)

Number	Title	Changes/Comments
IGE/UP/1	Strength & tightness testing & purging of industrial & commercial gas installations (inc Amd published March 05)	Under review
IGE/UP/1A	Strength testing, tightness testing & direct purging of small low pressure industrial & commercial Natural gas installations (inc amendments published March 2005)	Under review
IGEM/UP/1B	Tightness testing and direct purging of small Liquefied Petroleum Gas/Air, Natural Gas and Liquefied Petroleum Gas installations (with Amendments October 2012)	Due for Review
IGEM/UP/1C	Strength testing, tightness testing & direct purging of natural gas and LPG meter installations	
IGEM/UP/2	Installation pipework on industrial and commercial premises	Under review
IGEM/UP/3	Gas fuelled spark ignition and dual-fuel engines	Due for Review
IGEM/UP/4	Commissioning of gas fired plant on industrial & commercial premises	
IGEM/UP/6	Application of compressors to Natural Gas fuel systems	

Legislative, Normative & Informative Document List

Date issued: 1st July 2021

IGE/UP/7	Gas installations in timber framed & light steel framed buildings (inc. amendments published October 2008) Note 7: IGE/UP/7 - Edition 2 is available free at Click here	
IGE/UP/9	Application of Natural Gas and fuel oil systems to Gas turbines and supplementary and auxiliary fired burners	Under Review
IGEM/UP/10 - Edition 4 with amendments – March 2016	Installation of flued gas appliances in industrial and commercial premises	
IGEM/UP/11	Gas installations in educational establishments	
IGEM/UP/12	Application of burners and controls to gas fired process plant	Under Review
IGEM/UP/16	Design for Natural Gas installations on industrial and commercial premises with respect to hazardous area classification and preparation of risk assessments	
IGEM/UP/17	Shared chimney and flue systems for domestic gas appliances	
IGEM/UP/18	Gas installations for vehicle repair and bodyshops (Replaced British Gas Technical Publication IM/28: 1993)	
IGEM/UP/19	Design and application of interlock devices and associated systems used with gas appliance installations in commercial catering establishments	
IGEM/GL/8	Reporting and investigation of gas related incidents	Under review
IGE/GL/9	Guidance for large gas consumers in dealing with Natural Gas supply emergencies Available free at Click here	
IGE/TD/4	Gas Services	Revision expected
IGEM/G/1	Defining the end of the Network, a meter installation and installation pipework	Under review
IGEM/G/4	Definitions in the Gas Industry	Under review
IGEM/G/5	Gas in multi-occupancy buildings	Under review
IGEM/G/6	Gas supplies to mobile dwellings	Under review
IGEM/G/7	Risk Assessment Techniques	
IGEM/G/10	Non-return valves	
IGEM/G/11	The Gas Industry Unsafe Situations Procedure (GIUSP) Note 8: available for free at: https://www.igem.org.uk/technical-services/technical-gas-standards/general/igem-g-11-edition-2-gas-industry-unsafe-situations-procedure/	
IGE/GM/4	Flow metering practice for pressures between 38 & 100bar	
IGE/GM/5	Selection, installation & use of electronic gas meter volume conversion systems	Under review
IGEM/GM/6	Non-domestic meter installations – Standard designs	Under review

Legislative, Normative & Informative Document List

Date issued: 1st July 2021

IGEM/GM/7A	Electrical connections for gas metering equipment	
IGEM/GM/7B	Hazardous area classification for gas metering equipment	
IGEM/GM/8 - Pt 1	Non-domestic meter installations. Flow rate exceeding 6 m ³ h ⁻¹ & inlet pressure not exceeding 38 bar Design	
IGEM/GM/8 - Pt 2	Non-domestic meter installations. Location, housings and compounds	
IGEM/GM/8 - Pt 3	Non-domestic meter installations. Installation and commissioning	
IGEM/GM/8 - Pt 4	Non-domestic meter installations. Operation and maintenance	
IGEM/GM/8 - Pt 5	Non-domestic meter installations. Notices and labels	
IGEM/IG/1	Standards of Training in Gas Work Note 9: available free at Click here	
IGEM/IG/1 Supplement 1	Standards of Training in Gas Work, Non-domestic training specification Note 10: IGEN/IG/1 is available free at: Click here	
IGEM/IG/2	Engineer's Guide to relevant sections of IGEN/UP/19 in catering establishments Note 11: IGEN/IG/2 is available free at Click here	
IGEM/G/7	Risk assessment techniques	
IGEM/SR/25	Hazardous area classification of natural gas installations (with amendments July 2013)	Under review
IGEM/SR/29	Dealing with gas escapes	

Liquid Gas UK Codes of Practice (CoP)

Number	Title	Changes/Comments
	UKLPG - LPG Technical Fundamentals	
CoP 1 Part 1	Bulk LPG Storage at Fixed Installations – Design, installation & Operation of Vessels Located Above Ground	
CoP 1 Part 2	Bulk LPG Storage at Fixed Installations – Small bulk installations for domestic purposes	Revised guidance document
CoP 1 Part 3	Bulk LPG Storage at Fixed installations – Examination & Inspection	
CoP 1 Part 4	Bulk LPG Storage at Fixed Installations – Buried/Mounded LPG Storage Vessels	Revised guidance document
CoP 7	Storage of full & empty LPG cylinders & cartridges	Under review
CoP 17	Purging LPG vessels & systems	
CoP21	Guidelines for Safety Checks on LPG appliances in Caravans (Including Amendment Aug 2000)	

Legislative, Normative & Informative Document List

Date issued: 1st July 2021

CoP22	Design Installation and Testing of LPG Piping Systems	
CoP 24 Part 1	Use of LPG Cylinders – At residential & similar premises	
CoP 24 Part 3	Use of LPG for Commercial Catering Events, Street Food and Mobile Catering	
CoP 24 Part 5	Use of LPG Cylinders – Storage & use of LPG on construction sites	
CoP 24 Part 6	Use of Propane in cylinders at commercial & industrial premises	
CoP 25	LPG Central storage & distribution systems for multiple consumers (Including Amendment 1 2008)	
CoP 32	Liquid Gas UK CoP 32 LPG systems in Leisure Accommodation Vehicles and Road Vehicles with Habitation – Post Delivery Inspection, Commissioning and Maintenance	
GN 2	A guide to servicing cabinet heaters	

National Caravan Council (NCC) Codes of Practice (CoP)

13. Access to Industry Standards from Gas Safe Register

The Industry Standard numbers highlighted in table below are those included in the list of current Industry Standards available on a subscription basis to the majority of Gas Safe registered business. To subscribe, log into your online account at [Click here](#) and choose Standards Subscriptions'. Choose and pay for a one or three-year subscription and then you will be able to access the normative documents.

Number	Title
BS 5440-1: 2008	Flueing & ventilation for gas appliances of rated input not exceeding 70kW net (1st, 2nd & 3rd family gases) Specification for installation of gas appliances to chimneys & for maintenance of chimneys
BS 5440-2: 2009	Installation & maintenance of flues & ventilation for gas appliances of rated input not exceeding 70kW net (1st, 2nd & 3rd family gases). Specification for installation & maintenance of ventilation provision for gas appliances
BS 5546: 2010	Specification for installation & maintenance of gas-fired water-heating appliances of rated input not exceeding 70kW net
PD 54823: 2016	Code of practice for domestic butane & propane gas-burning installations. Installations in boats, yachts & other vessels
BS 5864: 2019	Installation & maintenance of gas-fired ducted air heaters of rated input not exceeding 70kW net (2nd & 3rd family gases). Specification
BS 5871-1: 2005	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel-effect gas appliances – Gas fires, convector heaters, fire/back boilers & heating stoves (1st, 2nd & 3rd family gases)
BS 5871-2: 2005	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel-effect gas appliances – Inset live fuel-effect gas fires of heat input not exceeding 15kW & fire/back boilers (2nd & 3rd family gases)
BS 5871-3: 2005	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel effect gas appliances – Decorative fuel-effect gas appliances of heat input not exceeding 20kW (net) (2nd & 3rd family gases)
BS 5871-4: 2007	Specification for installation & maintenance of gas fires, convector heaters, fire/back boilers & decorative fuel effect gas appliances – Independent gas-fired flueless fires, convector heaters & heating stoves of nominal heat input not exceeding 6kW (net) (2nd & 3rd family gases)
BS 6172: 2010 + A1 2017	Specification for installation, servicing and maintenance of domestic gas cooking appliances (2nd & 3rd family gases)
BS 6173: 2020	Specification for installation of gas-fired catering appliances for use in all types of catering establishments (2nd & 3rd family gases)
BS 6230: 2011	Specification for installation & maintenance of gas-fired forced convection air heaters for commercial & industrial space heating (2nd & 3rd family gases)
BS 6400-1: 2016	Specification for installation, exchange, relocation, maintenance and removal of gas meters with a maximum capacity not exceeding 6m ³ /h – Part 1 – Low pressure (2nd family gases)

Legislative, Normative & Informative Document List

Date issued: 1st July 2021

BS 6400-2: 2006	Specification for installation, exchange, relocation & removal of gas meters with a maximum capacity not exceeding 6m ³ /h (2nd & 3rd family gases) – Medium pressure (2nd family gases)
BS 6400-3: 2007	Specification for installation, exchange, relocation & removal of gas meters with a maximum capacity not exceeding 6m ³ /h – Low & medium pressure (3rd family gases)
BS 6644: 2011	Specification for Installation of gas-fired hot water boilers of rated inputs between 70kW (net) & 1.8MW (net) (2nd & 3rd family gases) – Incorporating Corrigendum No. 1
BS 6798: 2014	Specification for selection, installation, inspection, commissioning, servicing and maintenance of gas-fired boilers of rated input not exceeding 70kW net
BS 6891: 2015 + A1 2019	Specification for the installation and maintenance of low-pressure gas installation pipework of up to 35mm (R 1 ¼) on premises
BS 6896: 2011	Specification for installation & maintenance of gas-fired overhead radiant heaters for industrial & commercial heating (2nd & 3rd family gases)
BS 7624: 2004	Specification for installation & maintenance of domestic direct gas-fired tumble dryers of up to 6kW heat input (2nd & 3rd family gases)
BS 7967: 2015	Guide for the use of electronic portable combustion gas analysers for the measurement of carbon monoxide in dwellings and the combustion performance of domestic gas-fired appliances
BS 7967-5: 2010	Carbon monoxide in dwellings & other premises & the combustion performance of gas-fired appliances – Guide for using electronic portable combustion gas analysers in non-domestic premises for the measurement of carbon monoxide & carbon dioxide levels & the determination of combustion performance
BS 8446: 2005	Specification for the installation & maintenance of open-flued, non-domestic gas-fired laundry appliances
BS EN 721: 2019	Leisure accommodation vehicles – Safety ventilation requirements
BS EN 12327: 2012	Gas infrastructure – Pressure testing, commissioning and decommissioning procedures – Functional requirements
BS EN 15001-1: 2009	Gas installation pipework with an operating pressure greater than 0.5bar for industrial installations & greater than 5bar for industrial & non industrial installations – Detailed functional requirements for design, materials, construction, inspection & testing
BS EN 15001-2: 2008	Gas installation pipework with an operating pressure greater than 0.5bar for industrial installations & greater than 5 bar for industrial & non industrial installations – Detailed functional requirements for commissioning, operation & maintenance
BS EN 1949: 2011 +A1 2013	Specification for the installation of LPG systems for habitation purposes in leisure accommodation vehicles & accommodation purposes in other vehicles
BS EN ISO 10239: 2017	Small craft – Liquefied petroleum gas (LPG) systems
BS EN 13410: 2001	Gas-fired overhead radiant heaters - Ventilation requirements for non-domestic premises (Amd Jan 03)
